

Full view of binary image from origin

Cropped view of binary image within pixel limits

Number of data points per pixel

TIC per pixel

Most abundand mz value per pixel

Most abundant mz value per pixel projection

Median intensity per pixel

Maximal intensity per pixel

Minimal intensity per pixel

Maximal m/z value per pixel

Minimal m/z value per pixel

Averaged centroid mass spectrum

Noise estimation within interval of 4

Spectral coverage of mean spectrum

Property	Values
Spectral Type:	ProcessedCentroid
Numeric shape of Image (x, y, z):	[4 1 1]
Number of recorded Pixels:	4
Number of unrecorded Pixels:	0
mz range:	(50.148716, 299.95975)
Spacing:	[0.02 0.02 0.01]
Intensity range:	(20.0, 2541.0)
Number of individual data points:	2242
Mean number of data points per pixel \pm sd:	560 \pm 46
Median number of data points per pixel \pm MAD:	541 \pm 9
Mean TIC \pm sd:	48308 \pm 3080
Median TIC \pm MAD:	47671 \pm 1773
Range of median intensities per pixel:	(31.0, 33.0)
Range of maximal intensity per pixel:	(1923.0, 2541.0)
Range of most abundant mz per pixel:	(78.95873, 134.86333)
