

Full view of binary image from origin

Cropped view of binary image within pixel limits

Number of data points per pixel

Number of data points per pixel projection

TIC per pixel

TIC per pixel projection

Most abundand mz value per pixel

Most abundant mz value per pixel projection

Median intensity per pixel

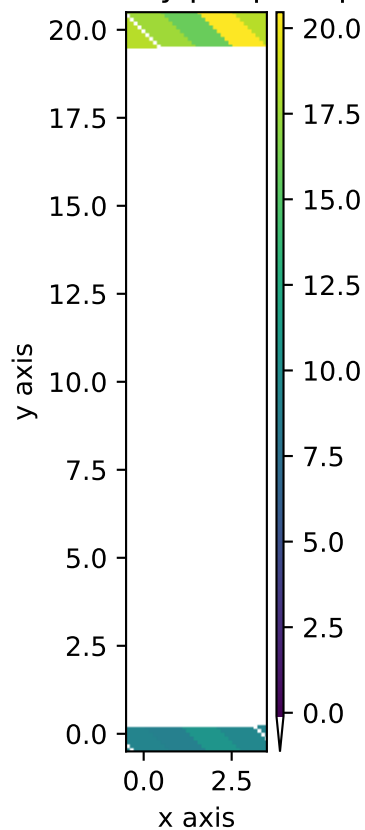

Median intensity per pixel projection

Maximal intensity per pixel

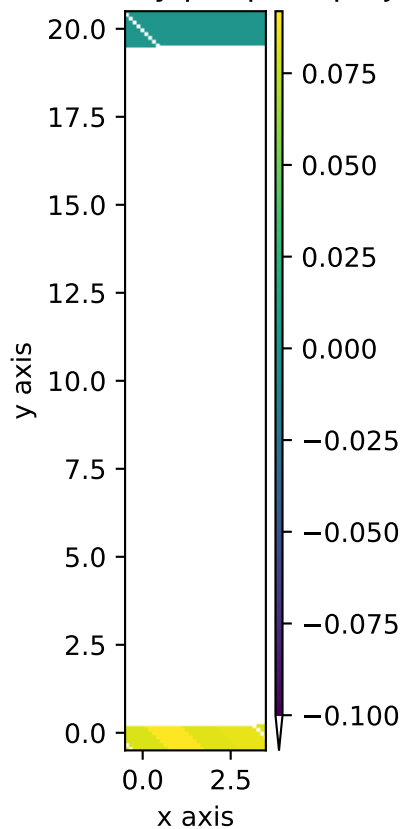

Maximal intensity per pixel projection

Minimal intensity per pixel

Minimal intensity per pixel projection

Maximal m/z value per pixel

Maximal m/z value per pixel projection

Minimal m/z value per pixel

Minimal m/z value per pixel projection

Averaged centroid mass spectrum

Noise estimation within interval of 4

Spectral coverage of mean spectrum

Property	Values
Spectral Type:	ProcessedCentroid
Numeric shape of Image (x, y, z):	[4 21 1]
Number of recorded Pixels:	8
Number of unrecorded Pixels:	76
mz range:	(50.148716, 299.95975)
Spacing:	[0.02 0.02 0.01]
Intensity range:	(0.0, 20.465574)
Number of individual data points:	10238
Mean number of data points per pixel \pm sd:	1279 \pm 769
Median number of data points per pixel \pm MAD:	1314 \pm 684
Mean TIC \pm sd:	298 \pm 100
Median TIC \pm MAD:	306 \pm 90
Range of median intensities per pixel:	(0.0, 0.14246058464050293)
Range of maximal intensity per pixel:	(8.837152, 20.465574)
Range of most abundant mz per pixel:	(78.95873, 134.86333)
