calibrant spectra for Calibrant C

no peak data found
for 222.222
in specified coverage interval

calibrant spectra for CalibrantD

no peak data found
for 500.0
in specified coverage interval

mass accuracy of calibrants (most abundant peak vs theoretical)

mass accuracy of calibrants (weigthed average vs theoretical)

Mass accuracy of 78.959, (Calibrant A)

Intensity of 78.959 ± 50.0 ppm, (Calibrant A)

Mass accuracy of 134.862, (Calibrant B)

Intensity of 134.862 ± 50.0 ppm, (Calibrant B)

calibrant spectra for Calibrant C

no peak data found
for 222.222
in specified coverage interval

calibrant spectra for CalibrantD

no peak data found
for 500.0
in specified coverage interval

Boxplot of mass accuracies within ppm interval by calibrant

Comparison of aquisition-based binning
